

Minor Research
**To Find Background Radiation Levels of a Building Using
Pocket Radiation Monitor**

February 24, 2023

Department of Physics conducted a minor research activity for B.Sc. (Non-Medical) Sem.-IV students on 'To Find Background Radiation Levels of a Building Using Pocket Radiation Monitor' under DBT Star Scheme on 24-2-2023. 33 students participated in the session under the guidance and supervision of Dr. Vimal Mehta. The students were able to learn the basic reasons of existence of radiation and the working of the pocket Radiation Monitor. Students were very satisfied by this activity.
