

## Nanhi Chhaan Committee

### Report

### Distribution of saplings

On 25th Nov., 2024, Distribution of saplings of plants was done by the Nanhi Chhaan Committee in collaboration with the Department of Agriculture, Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib. During the event, a significant number of saplings were distributed to the girl students, who were encouraged to plant and nurture them. The initiative not only aimed at increasing the green cover in nearby areas but also sought to inculcate a sense of responsibility and environmental consciousness among the students. By involving students directly in the planting process, the committee hoped to enhance a deeper connection with nature and promote sustainable practices. The students were also encouraged to take regular care of the saplings and understand the importance of trees in maintaining ecological balance, reducing pollution, and conserving natural resources. The activity served as a meaningful step towards creating a cleaner, greener, and more sustainable campus and surrounding environment. It also highlighted the importance of collective participation in environmental conservation and encouraged students to become responsible citizens and ambassadors of green practices. Principal Dr. Jasvir Singh ji appreciated the efforts of the organizers and encouraged the students to actively participate in similar environmental initiatives in the future.
