

Sri Guru Teg Bahadur Khalsa College

Sri Anandpur Sahib, Punjab

Institutions Innovation Council

in collaboration with

PG Department of Computer Science

Organized an Expert Talk on

Artificial Intelligence: Shaping Our Future

An expert talk on “Artificial Intelligence: Shaping Our Future” was organized by the Post Graduate Department of Computer Science & Applications in collaboration with the Institution’s Innovation Council (IIC), Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib, at Bhai Nand Lal Public School, Sri Anandpur Sahib, on 21st April 2026. The initiative was undertaken as part of IIC activities to promote innovation and technological awareness among school students. Prof. Tajinder Kaur, Assistant Professor and IIC Innovation Ambassador, delivered the session to the students of classes 9th and 10th. The event was coordinated by Prof. Amanjot Kaur from the Computer Science Department.

During the session, students were introduced to the fundamental concepts of Artificial Intelligence and its significance in the modern world. The talk highlighted various real-life applications of AI in sectors such as healthcare, education, agriculture, and defense, along with an overview of emerging technologies like Machine Learning and Robotics. The session aimed to nurture curiosity, innovation and problem-solving skills among young learners, in alignment with the objectives of the Institution’s Innovation Council.

The session was interactive and engaging, with students actively participating and showing keen interest in understanding the future scope of AI. The resource person also motivated the students to explore innovative technologies and consider career opportunities in the field of Artificial Intelligence.

The Principal of the college, Dr. Jasvir Singh, appreciated the efforts of the IIC and the department in organizing such outreach activities. He emphasized the importance of fostering innovation and technological awareness at the school level and encouraged continued initiatives under IIC to bridge the gap between school and higher education.

Overall, the expert talk proved to be informative and inspiring, successfully contributing to the IIC’s vision of promoting innovation, creativity and entrepreneurial mindset among young students.

Objectives: To create awareness among school students about Artificial Intelligence and inspire them to explore innovation and emerging technologies.

Benefits: Enhanced students’ understanding of AI concepts, increased curiosity toward technology, and motivated them to consider future learning and career opportunities in the field of Artificial Intelligence.

No. of Participating Students: 45
