Institution's Innovation Council in collaboration with PG Department of Chemistry to mark the occasion of National Pollution Control Day today organized an expert talk entitled "Bhopal Gas Tragedy: A Chemical Disaster" by Innovation Ambassador Dr. Gagandeep Kaur. National Pollution Control Day is observed to commemorate the Bhopal Gas Tragedy and to raise awareness about the importance of pollution control measures in preventing such disasters. The lecture aimed to raise awareness among students about the importance of environmental protection and the consequences of neglecting safety protocols. The speaker shared valuable insights into the complexity of industrial safety, the role of chemical hazards, and the need for stringent pollution control measures in preventing such disasters in the future. It was a thought-provoking lecture. The speaker highlighted the events leading up to the tragedy, its impact on human lives and the environment, and the lessons learned. The lecture was attended by more than 40 students who actively participated in the discussion. The event concluded with a Q&A session, where students posed thought-provoking questions, demonstrating their engagement with the topic.

**Objectives:** To raise awareness about the dangers of hazardous chemicals, importance of safety protocols in chemical industries, pollution control measures and to sensitize students regarding environmental sustainability.

**Benefits:** To learn about the critical need for stringent safety standards in industries.

To encourage the students to think critically about environmental protection and sustainability.
