

Activity Report
Institution's Innovation Council
Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib

Institution's Innovation Council, Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib organised an Expert Lecture on "Technology and Innovation for achieving Sustainable Development" on 29th May 2026. The Resource person for the session was Prof. Bhawna Thakur, Assistant Professor & Head, Department of Agriculture, SGTB Khalsa College, Sri Anandpur Sahib. The speaker emphasized that role of technological advancements and innovative solutions in addressing global sustainability challenges. The session was very much informative for students, particularly emphasizing on how emerging technologies can contribute to agriculture, economic growth and environmental protection. The expert discussed the significance of integrating technology with sustainability to address global issues such as climate change, resource depletion, pollution, and food security. The session was co-ordinated by Dr. Shelly. 40 students actively attended the session. The Principal Dr. Jasvir Singh really appreciated the IIC team for organizing such session. The IIC President Dr. Gurpreet Kaur also encouraged students to develop a sustainable approach addressing everyday life aspects.

Objectives:

1. To enhance understanding of the role of technology and innovation in achieving sustainable development goals
2. To encourage participants to adopt innovative and sustainable practices in research and education

Benefits:

The students gained valuable knowledge about modern technologies and innovative approaches that support sustainable development and environmental conservation. It enhanced awareness regarding the importance of balancing technological progress with environmental responsibility and resource conservation.

No. of Student Participants: 40
