

ONLINE ESSAY WRITING COMPETITION

The Department of Mathematics, Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib, Punjab Organised an "Online Essay Writing Competition" on October 22, 2020. The programme was funded by DBT Star College Scheme. 80 students of all science streams of the college took part in the competition. Topics given to the students were: Relationship of mathematics with other sciences, Describe the causes of mathematics anxiety, What is the best way to get students interested in mathematics? , What type of mathematics do you use in your daily life? It was a learning and knowledgeable experience for the students. The activity helped to create, collaborate and communicate their critical thinking. The coordinators of this event were Prof. Maninder kaur and Prof. Aditi Duvedi.

What Type Of Maths Do You Use In Your Daily Life?

Life is a math equation.

In order to gain the most, you have to know how to convert negatives into positives.

Even those suffering from math-related anxieties or phobias cannot escape its everyday presence in their lives. From home to school to work and places in between, math is everywhere. Whether using measurements in a recipe or deciding if half a tank of gas will make the destination we all use math. It is a good idea, therefore for teachers and parents of reluctant math learners to use real-world examples to ignite a

Topic :- What is the best way to get children interested in Mathematics?

Introduction :-

Mathematics is the study or science of numbers, quantities or shapes. It is the subject which makes our life orderly and prevents chaos. The qualities that are nurtured by mathematics are power of reasoning, creativity, abstract or spatial thinking i.e. It is the subject that increases our reasoning or creativity ability. There is no doubt that students of present generation considered Mathematics as a bore or as a difficult subject. The reason behind this may of lack of practice, having not well attitude towards learning the subject, lack of understanding about signs and symbols etc.

On the other hand, if we do problems based on Mathematics by heart, there will be no other subject as easy as Mathematics. We all know that the digits we learn in Maths starts from Zero (0). If we also start from zero, only then we can further proceed and become successful. We know, without maths, there is nothing that we can do. Everything around us is Maths.

Importance of Mathematics :-

- Stimulates Brain :- Practicing Maths keeps our brain sharp and boosts learning capabilities.
