

Educational trip to Pushpa Gujral Science City, Kapurthala

The Department of Chemistry arranged an educational trip to Pushpa Gujral Science City Kapurthala on 3rd March 2023. 39 students from various disciplines, including B.Sc. (Honours) Chemistry-I and II, B.Sc. (Non-medical)-II and B.Voc. (Pharmaceutical Chemistry)-III, have gone on an educational trip together. The museum has an abundance of attractions, ranging from physical sciences to life science and the science of sports. Not only that, but there are also multiple theatres which provide shows where students can learn about science in unique ways. Additionally, there is a Dinosaur Park with life-sized replicas and information about their lives and extinction. After all the learning was done, everyone had some snacks at the restaurant before heading back home feeling refreshed after such an educational experience.
