

Poster making competition on 'Save Ozone, Save Earth, Air Pollution, Save Water' (28.09.2026)

P.G. Department of Botany, Sri Guru Teg Bahadur Khalsa College, Sri Anandpur Sahib, organized a poster making competition in collaboration with the 'Botanical Society' on the topics entitled 'Save Ozone, Save Earth, Air Pollution, Save Water' on 28.09.2026. Students of BSc. Medical and MSc. Botany participated in this competition. The primary goal of the competition was to give our youth a platform to voice their environmental concerns while inspiring the community to adopt a sustainable lifestyle. Our talented participants transformed blank canvases into moving messages of hope, urgency, and global action. Creativity met conservation in this Poster Making Competition, where brilliant minds brought critical environmental issues to life through vibrant colors, striking imagery, and powerful slogans.

Posters were judged by Dr. Prabhjot Kaur (Head, Department of Fine Arts) and Dr. Manpreet Kaur (Assistant Professor, P.G. Department of Punjabi). Respected Principal Dr. Jasvir Singh honoured the winners, praised their efforts and motivated the students to not limit these ideas to papers but practice conservation every single day. Beyond a competition, this event served as a powerful reminder that our planet's survival rests in our collective hands. Dr. Ravi Kant, Head of the Department, extended his gratitude to Principal Sir, invited judges, all the participants and coordinators—Dr. Manpreet, Dr. Sartaj Singh, and Prof. Mandeep Kaur, who made this event a grand success.
